--

A vertical strip of film, likely a microfilm or a scan of a physical document. The main part of the strip shows a dark, textured surface, possibly a rock or mineral specimen, with some lighter, irregular shapes. To the left of the specimen is a ruler with markings in centimeters and millimeters. The film is labeled with pink text: '319 WIK K12' and '319 COMG'. There is also a small 'A' logo and some other markings at the bottom of the strip.
