

Transect NOG-01B, Figure F64. Composite of through-pipe logging data, conductivity and acoustic image logging data, optical image and open-hole gamma logging data, sonic and EM51 logging data, and IDRONAUT and caliper data, Hole M0054B. TGR = total gamma ray (raw), TP = through pipe, ILD = deep conductivity, ILM = medium conductivity, OH = open hole, RX1 = sonic waveforms for receiver 1, RX2 = sonic waveforms for receiver 2, V_p = P-wave velocity, IL = induction log, MSUS = magnetic susceptibility.
