

# 70A 2R

Unit

Lithology

Minerals

Veins

Structure  
Deformations

Notes

Plagioclase laths  
to 0.5mm  
in basalt

Carbonate-  
hosted  
1 Basaltic  
Breccia

possibly some  
alteration  
carbonated  
matrix  
→ oxidation  
locally of  
the matrix

No  
measurements.

Vesicles in basalt to  
1.5mm

Poorly sorted angular  
fragments of  
vesicular basalt  
in a matrix-supported  
carbonate breccia

matrix here quite a lot in  
colour.
