

Observation Sheet (SEM / Microscope)

Observer: AD

Date: 09 / 03 / 2019
(d/m/y)

Expedition Number: 358

Site: C0002

Hole: T

Core: K

Section: 1

Interval: _____

Misc # (SMW): _____

Sample comment:

*tectonically undeformed
silty claystone, representative
for core K-1*

Image file name: 358-C0002T-1K-1W-St-01.jpg

Sediment type: Silty Claystone

Comments:

- drilling induced deformation
 - interlayering of clayey and silty layers
 - contains white mica
- Sample ID: CKY00000000000008323800

Object: _____
