

Variation in iron monosulfide occurrences at Sites M0081 and M0082

M0081B, Section 11

Mottling (1-10 mm in diameter)
or patches (>1 cm in diameter)
in fine grained sediment intervals

M0081B, Section 8

Mottling in bioturbated zones
beneath coarse grained
sediment transport deposits

M0082D, Section 20

Nearly uniform staining in
strata layers in both fine grained
and coarse grained beds
