Line 386_Underway_092 detail
Abrupt boundary between basal high and laminated package, possible fault contact
M0091C/ M0091D (projected)
M0091A/ M0091B (projected)
Acoustically transparent package
High amplitude seafloor layer
Drag from this horizon upwards
Acoustic basement
Possible drag of layers
Acoustically laminated package
Acoustic basement
Basal high
~30 m
1000 m
