Drawing/Annotation

Lithology

Comments

Nano
fossil
ooze.

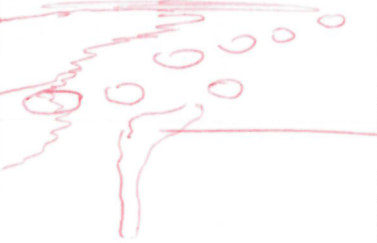

low intensity bioturbation.
~~Moderate~~ Massive,
(off)-white (N&S)

green
bands - pyrite.

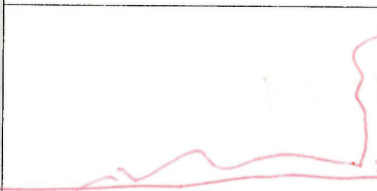

light grey band
(pyrite).

Moderate bioturbation
lighter within structures.
Thalassinoides.

Drawing/Annotation

Lithology

Comments

Wannoo
fossil
ooze

Massive, grey/STN (white)
→ slight drilling disturbance
Pyrite present as:
→ green bands
= dark grey patches
= reddish brown staining.
